INTRODUCTION

Geoscience Testing Laboratory (GTL) is a UAE based private independent testing laboratory established in the year 1996 aiming towards full commitment in quality and providing the highest standard service in the building evolution of UAE. The laboratory is fully owned by UAE national Mr. Abdul Latif Ali Al Gargawi. It started its first activity in the field of soil investigation and recognizing the vast demand of testing service requirement in the construction industry, the laboratory has expanded its activity in the field of Physical, Mechanical and Chemical Analysis of Construction Materials. Understanding the principle of improvement through diversification, GTL has added to its scope facilities for the Environmental and Microbiological Tests.

With almost a decade of operation in Dubai in the year 2005, GTL commenced operation of its first branch laboratory in the Emirate of Sharjah and later at Abu Dhabi in year 2006 and Al Ain in 2009.

Currently GTL is one of the fully equipped laboratories capable to perform Physical, Mechanical and Chemical Tests on Construction Materials (Soil, Aggregate, Concrete, Cement, Steel, Asphalt, Water etc.), Environmental Analysis, Geotechnical Investigations and Microbiological Tests on Food, Water, Air, etc. Exceptionally skilled staff with vast experience in the relevant fields has been assembled to perform the required tests. Over the years of existence, GTL has successfully completed numerous major and prestigious projects for Dubai Municipality, Road & Transport Authority (RTA), DEWA as well as from various prestigious private customers including Nakheel, Emaar, Aldar, etc.

The multidiscipline laboratory with Quality Management System certified to ISO 9001 : 2008 and most of the tests in the fields of Material Testing, Geotechnical Investigations, Environmental Analysis and Microbiological Testing are accredited to ISO /IEC 17025 : 2005 provide excellent testing services in addressing all the customers needs. In order to establish the accuracy and reliability of the test results, the laboratory participates in National and International Proficiency Testing Programs. All the activities governing GTL are planned to deliver high standards of service to the customers with regards to commercial, technical, quality and safety aspects.

VISION

Geoscience Testing Laboratory strives to deliver the best that science, analytical research, innovation and technology could offer worldwide because we believe that they could accomplish our vital mission faster. We aim to be the trusted, competitive and best service provider in the field of construction, environment, microbiology and other allied industries. Our remarkable success for the past years remains the foundation of our organization and inspires our efforts today for tomorrow's upcoming economic challenges globally.

MISSION

We provide our customers analytical and physical services using ingenuity and technical expertise conforming to the requirements of international standards leveraging emerging technologies, innovation and regulatory laws focusing on quality workmanship. Our employees are our greatest asset. Corporate values provide growth and development opportunities for all employees committed to fulfilling the company's vision and for continuous improvement in quality, processes and instrumental capability. We deliver our services with professionalism, integrity, commitment, punctuality and excellence inscribe in our work exceedingly meeting our customer's satisfaction. Our strategic partners are built on mutual trust. We assure the safety and health of our employees by encouraging improvement in workplace and making them aware of its importance.

VALUES

We view customer commitments not only as contract but as covenant. We certainly believe that ethics and business are compatible; thus, we strive to motivate this belief in every aspect and direction of our services.

To better serve our customers, we are committed to providing our employees with a safe and secure work environment in which personal initiative is promoted and conscientious effort is rewarded. We agree to work together as a team instead of competing against each other or exploiting fellow workers. Hence, we commit to assist one another in an environment of genuine care, concern and understanding.

While we work together, we acknowledge our individual uniqueness and capabilities. We encourage each member of our team to become continually authentic as human being. We appreciate each other for not only what we do but for who we are. Our employees are our greatest asset. We have grown up leaders by hard effort, which all of us must pay to achieve our goals. In our journey to success, our professionalism has grown up with the distinction and reputation of our organization.

GTL values the highest standard of mutual respect, professionalism, continuous learning and practice, and the integrity in our commitment to our stakeholders and partners.

Finally, we acknowledge that we are a learning organization, comprised of individuals, leading professionally and endeavoring to serve the industry.

GEOSCIENCE TESTING LABORATORY

QUALITY POLICY STATEMENT

It is the policy of GTL to have full commitment to quality and to provide integrity and reliability in all laboratory services fulfilling the requirements of quality in all aspects of work, continuously meeting or exceeding customer's expectations.

Execute all laboratory services meeting the standard test methods as well as quality aspects in a timely manner.

To establish, maintain and continually improve an integrated laboratory management system based on the requirements of International standards of ISO/IEC 17025 and ISO 9001.

Press release:

**Dubai Quality Group renews its strategic partnership with
Geoscience Testing Laboratory**

Dubai: Dubai Quality Group (DQG) has renewed today its strategic partnership with Geoscience Testing Laboratory (GTL) which produces a wide range of multi-quality testing services. The ceremony took place at the group's office.

Renewing the agreement aims at enhancing quality standards in laboratory and testing field for its important role on the national organization in the UAE.

Geoscience Testing Laboratory aims to use this partnership in order to follow the best-quality standards to develop its performance, boost its customer services and to utilize the programs initiated by Dubai Quality Group, and to benefit from their various services such as quality advisory service, conferences, workshops and seminars.

Mr. Khalid Al Jowdar, Secretary General of Dubai Quality Group said: "Geoscience Testing Laboratory is one of the most important scientific organizations in the country where its achievements had contributed in the quality development through conducting organizational excellence standards. On our part, we will support and offer all the necessary foundation to GTL to ensure the highest levels of quality in laboratory field".

"Renewing this partnership confirms the commitment of Geoscience Testing Laboratory for the application of organizational excellence standards. It also proves Dubai Quality Group's contribution in promoting the employees and managers' functional performance and increasing its competence. This joint-work reflects Dubai Quality Group's tendency in organizing training programs especially comparative standard programs in and out side the country" Al Jowdar added.

On her part, Mary Jane Alvero Al Mahdi, CEO of Geoscience Testing Laboratory said: "Dubai Quality Group is one of our investor partners which is continuously helping our organization to foresee the wider vision of our mission as well as accomplishing our success. DQG inspires us for today's difficulties and tomorrow's upcoming economic challenges. DQG opened us a lot of opportunities for business, facilitates networking with other organization and improves the relationship with other stakeholders.

"Being one of the awardees of Emirates Business Woman Award 2008 – Professional Category, I could testify how Dubai Quality Group has changed and improved my career path and professional responsibilities as the Chief Executive Officer (CEO) of Geoscience Testing Laboratory." Mary Jane added.

Geoscience Testing Laboratory (GTL) is an independent testing laboratory with a wide range of testing services addressing the Construction Material Testing, Geotechnical Investigation, Environmental Testing and Microbiological Testing. GTL management system is certified to ISO 9001:2000 and accredited to ISO/IEC 17025:2005 by Dubai Accreditation Center and ENAS.

With a mission in providing our customer with unsurpassed quality service is GTL's driving force for succeeding in the industry. Empowered by multinational work force with their commitment and dedication is the organization's greatest asset in achieving our goals.

Considered as the most leading quality-driven organization, Dubai Quality Group aims to spread quality concepts among organizations through its regular quality programs and consultancy services. These programs and services contribute in improving the performance levels of local business sectors.

This is an accredited certificate authorized for issue by Accreditation Service for Certifying Bodies (Europe) Limited who have assessed QRS as a Certifying Body for compliance with ISO 17021:2015 'Conformity Assessment - Requirements for bodies providing audit and certification of management systems'.

This certificate is only valid when confirmed by the register listed in the quality registrar system (qrsyst.com)

ACCREDITATION CERTIFICATE

LB-003-TEST

Dubai Accreditation Department

has accredited

**Geoscience Testing Laboratory
Dubai- United Arab Emirates**

In accordance with the requirements of ISO/ IEC 17025: 2005 to undertake the tests
in the fields of:

**Construction Materials Testing
Geotechnical Investigation
Air Quality Monitoring
Environmental Testing
Cosmetic Testing
Food Testing**

For the tasks listed in the attached Scope of Accreditation

This Accreditation is invalid without the attached scope of accreditation and shall remain in force within the validity period printed below, subject to continuing compliance with the requirements of the accreditation program.

Validity of Certificate: from 08- 10- 2017 to 26- 04- 2020

Initial Accreditation Date: 05- 06- 2002

Director, Dubai Accreditation Department

SCOPE OF ACCREDITATION

Construction Materials Testing

Geoscience Testing Laboratory

Dubai- United Arab Emirates

Issue No: 12

Issue date 07-02-2018

Accreditation Certificate No: LB-003

Type of Task	Materials/ Products	Task Name	Standard method
Mechanical/ Physical	Soil	Methods of test for soils for civil engineering purposes Part 4: Compaction relates tests (Determination of California bearing ratio)	BS 1377 Part 4 Clause 7.2.3
		Methods of test for soils for civil engineering purposes Part 9: In-situ tests (Sand replacement method suitable for fine, medium and coarse grained soils (large pouring cylinder method))	BS 1377 Part 9 Clause 2.2
		Methods of test for soils for civil engineering purposes Part 4: Compaction- related tests (Determination of dry density / moisture content relationship)	BS 1377 Part 4 Clause 3.5 and 3.6
		Methods of test for soils for civil engineering purposes Part 2: Classification tests (Determination of particle size distribution)	BS 1377 Part 2 Clause 9.2 & 9.3
		Methods of test for soils for civil engineering purposes Part 2: Classification tests (Determination of Plastic Limit and Plasticity Index)	BS 1377 Part 2 Clause 5.3 & 5.4

ACCREDITATION CERTIFICATE

Testing Laboratory

No. ATL 0037

Geoscience Testing Laboratory LLC

Store #2, Area 149, Sanaiya, P. O. Box: 24827, Al Ain, United Arab Emirates.

is accredited by the GCC Accreditation Center (GAC) in accordance with the recognised International Standard ISO/IEC 17025:2005,
"General requirements for the competence of testing and calibration laboratories"

This accreditation demonstrates technical competence for a defined scope as detailed in and at the locations specified in the schedule to this certificate, and the operations of a laboratory quality management system (refer to joint ISO-ILAC-IAF communiqué dated 8 January 2009).

The Schedule to this certificate is an essential accreditation document and from time to time may be revised and reissued by the GCC accreditation Center. The most recent issue of the schedule of accreditation which bears the same accreditation number as this certificate, is available from the GAC website www.gcc-accreditation.org

The accreditation is subject to continuing conformity with GAC Accreditation requirements. The absence of a schedule on the GAC website indicates that the accreditation is no longer in force.

Date of accreditation is from: 08 November 2016

Expiry date: : 07 November 2018

The GAC internal project number is: AC 0140-1

For the following scope:

Scope:

2.0 Construction Materials

2.18 Soils, Aggregates, Concrete, Asphalts

Scope details are as follows:

10.6 Schedule of Accreditation

Issue No: 2 / Issue Date: 10.1.2.2017
Accreditation Manager: Atta Subhan

TEST CATEGORY	ITEMS, MATERIALS OR PRODUCTS TESTED	SPECIFIC TESTS OR PROPERTIES MEASURED	SPECIFICATION, STANDARD METHOD OR TECHNIQUE USED
Construction Material Testing	Soil	Determination of In-situ Density by Sand Replacement Method	BS 1377-9:1990, Clause 2.2
		Determination of Laboratory Compaction Characteristics of Soil Using Modified Effort	ASTM D1557 - 12
		Determination of Particle Size Distribution	ASTM D422 - 63(2007)
		Determination of California Bearing Ratio	ASTM D 1883 - 16
		In-Place Density Test by Sand Cone Method	ASTM D1556/D1556M - 15
	Concrete	Determination of Particle Size Distribution (Wet / Dry)	EN 933-1 : 2012
		Determination of Flakiness Index of Aggregates	EN 933-3 : 2012
		Determination of Shell Content in Course Aggregates	EN 933-7 : 1998
		Determination of Soundness of Aggregates by use of Sodium Sulphate and Magnesium Sulphate	ASTM C88 - 13
		Specific Gravity, Density and Water Absorption of Coarse Aggregates	ASTM C 127 - 15
		Specific Gravity, Density and Water Absorption of Fine Aggregates	ASTM C 128 - 15
		Sieve Analysis of Fine and Coarse Aggregates	ASTM C136/C136M - 14
		Determination of Sand Equivalent Value	ASTM D 2419 - 14
		Resistance to Degradation of Small-Size Coarse Aggregates by Abrasion and Impact in the Los Angeles Machine	ASTM C131/C131 - 14
		Determination of Compressive Strength of Cubes	ASTM C 535 - 16
		Electrical Indication of Concrete's Ability to Resist Chloride Ion Penetration	EN 12390-3 : 2009
		ASTM C 1202 - 17	

10.6 Schedule of Accreditation

Issue No: 2 / Issue Date: 10.1.2.2017

TEST CATEGORY	ITEMS, MATERIALS OR PRODUCTS TESTED	SPECIFIC TESTS OR PROPERTIES MEASURED	SPECIFICATION, STANDARD METHOD OR TECHNIQUE USED
Construction Material Testing	Asphalt	Determination of Depth of Penetration of Water Under Pressure	EN 12390-8 : 2009
		Determination of Water Absorption of Hardened Concrete	BS 1881-122 : 2011
	Concrete	Determination of the Initial Surface Water Absorption of Concrete	BS 1881-208 : 1996
		Thickness or Height of Compacted Asphalt Mixture Specimens	ASTM D3549/D3549M - 17
		Preparation of Asphalt Mixture Specimens Using Marshall Apparatus	ASTM D 6926 – 16
		Marshall Stability and Flow of Bituminous Mixtures	ASTM D 6927 – 15
		Mechanical Size Analysis of Extracted Aggregate	ASTM D 5444 – 15
